

HTI is looking for an experienced Lathe Operator to strengthen our high-performance machine shop by effectively achieving production goals.

**Specific Qualifications:**

- Experienced Lathe Machine Operator
- Experience running multi-axis machines
- Experience with Citizen machinery a plus
- We have Swiss machines with live tooling on both sides – need to be comfortable with this
- Read and interpret blueprints and drawings
- Perform complete inspections with minimal supervision
- Use of, calibration, and proper maintenance of equipment
- Set up and operate a variety of machines applying knowledge of mechanics and shop mathematics
- Ability to read and edit programs for a variety of CNC Lathes
- Strong knowledge of materials, tooling, and machining procedures
- Self-starter, detail oriented, logical, reliable and loyal
- Ability to apply common sense understanding to carry out detailed (written or oral) instructions
- Able to work in a fast-paced environment and the capability to deal with problems involving a few concrete variables in standardized situations

**Would prefer familiarity with the following machines:**

- Nakamura Tome WTS150
- Mori Seiki SL2500
- Omni Turn GT75
- Tsugami B0205-II
- Tsugami B0205-III
- Tsugami SS207-5AX
- Citizen L20
- Citizen L32 1M10
- Sharp 1340VS

HTI is a typical machine shop environment. The noise level in the work environment is usually moderate, however some loud noises occasionally occur.

HTI offers competitive pay along with a full benefit package after 60 days of employment including vacation, medical, dental, vision, short term disability, long term disability, life insurance, and a generous 401-K plan.

If you are qualified and interested in working with our great team, please send all inquiries and resumes to Valerie Howard (HR Manager) at Val@hti-fw.com.
